## Ontario Ministry of Children, Community and Social Services

5700 Yonge St

Toronto, ON

### Re: Application for Software Engineer Co-op Position

Dear Hiring Manager,

I am a third-year Computer Science student in the Co-op program at Toronto Metropolitan University, maintaining a 3.81/4.33 GPA. I am excited to apply for the Software Engineer Co-op position at Ontario Ministry of Children, Community and Social Services. With hands-on experience developing Java and JavaScript development, SQL-based data handling, Git workflows, debugging, and building data-driven applications across the SDLC, I am eager to contribute my technical, analytical, and collaborative skills to your team.

As the Lead Web Developer for TMU's robotics team, I developed a React-based dashboard to visualize real-time rover data, integrating ROS2 and WebSockets to enhance performance during the University Rover Challenge. This experience strengthened my understanding of scalable UI design, modular development, and agile collaboration within a multidisciplinary team. Additionally, my coursework in Data Structures, Software Engineering, and AI/ML has given me a strong foundation in problem-solving and software architecture.

Beyond my technical experience, I bring strong teamwork and leadership skills from my role as a Crew Trainer at McDonald's, where I mentored new team members, managed priorities under pressure, and maintained high performance standards. These experiences reinforced my ability to communicate clearly and collaborate effectively, which I believe are both essential in fast-paced development environments.

I am particularly drawn to Ontario Ministry of Children, Community and Social Services because of your commitment to delivering reliable, secure, and accessible digital services for Ontarians. I am inspired by your focus on applying modern software engineering and DevOps practices to support critical public-sector systems, and I am eager to apply my skills to support your ongoing projects while continuing to grow as a Software Engineer within your organization.

Thank you for considering my application. I look forward to the opportunity to discuss how I can contribute to Ontario Ministry of Children, Community and Social Services's success.

Sincerely,

Allen Reinoso (He/Him)

Third-Year B.Sc. (Hons Co-op) Computer Science Candidate  
Toronto Metropolitan University
